**Announcement: Discontinuation of VIBROTEST 60 portable instruments product line**

Hereby we would like to announce the discontinuation of our VIBROTEST 60 portable instruments. The VIBROTEST 60 will be discontinued on December 31<sup>st</sup>, 2015. VIBROTEST 60 production during 2015 will be in limited quantities and delivered on the "first come – first served" basis. This announcement is related specifically to the instruments, while firmware modules, cables and accessories will remain available on a case by case basis.

As per Brüel & Kjær Vibro policy, we will continue to offer repair and calibration services, spare parts in the foreseeable future (for a maximum of five years after discontinuation).

Since its introduction, VIBROTEST 60 has become an extraordinary sales success worldwide and it has delivered tremendous customer satisfaction that Brüel & Kjær Vibro is committed to maintain. With that in mind, we have developed an even more powerful successor to the VIBROTEST 60, the VIBROTEST 80 & VIBROPORT 80 product line.

With great pleasure we want to announce the introduction of our new line of portable instruments.

**VIBROPORT 80 & VIBROTEST 80 - "The Allrounders" -**

- **Application:** Analyzer, Balancer & Data Collector
- **Analyzing and Reporting Tools:** "Report & ROute Manager" for Data Collection, and "Report & EXaminer Software" for Analysis and Reporting.

VIBROTEST 80 & VIBROPORT 80 covers most functions and features of VIBROTEST 60 and offer much more, like:

- Light Weight, colored display, Instrument with IP65 classification
- ATEX or CSA certified Units
- Lithium Ion Battery for up to 8 hrs. operation
- Up to 16 GB memory SD card
- 4 channel option available
- **Unique capability in the market.** Ability to import VIBROTEST 60's xms database, including settings and historical measurement data directly into the new "Report & ROute Manager" data collector software by one click

For more information do not hesitate to contact the regional Brüel & Kjær Vibro sales representative or take a look on our homepage [www.bkvibro.com](http://www.bkvibro.com) where you can download information about our portable products. The VIBROTEST 80 & VIBROPORT 80 product specification documents will help you discover the great potential of these powerful products, including features, technical data and even ordering overviews.

Best Regards, Brüel & Kjær Vibro GmbH
