

Senior Strategic Product Manager (m/f/d)

BK Vibro is one of the world's largest independent suppliers of machinery protection and condition monitoring systems. The systems are installed on rotating and reciprocating industrial machinery, such as pumps, turbines, compressors, motors, generators and gearboxes. Our solutions include hardware, software, sensors and all the required services, training, and consulting to install, integrate, apply, and operate our solutions.

Brüel & Kjær Vibro (BK Vibro) is looking for skilled and experienced Senior Strategic Product Manager (m/f/d) to join our team.

As Senior Strategic Product Manager for our Edge devices platform you will play a central role in shaping the future roadmap of B&K Vibro's core product portfolio. In this global role, you will be part of the product management team directly reporting into the CTO.

If you love:

- Full product management responsibility for an important growth platform including responsibility for budget and financial success
- An active role in defining the future strategy of an important product portfolio
- To plan and manage all aspects of the product lifecycle (act as Mini -CEO for the responsible product portfolio)
- Preparing solid business cases based on deep customer and market understanding for new product developments and strategic initiatives
- Leading teams consisting of direct and non-direct reports

Your profile:

- Profound background in product management complemented by strong affinity to technical as well as commercial topics
- Proven lateral leadership skills, proactive and team-oriented style of working
- Ability to prioritize, focus and act on the global scale picture
- Excellent communication skills, including presentations and ability to unite globally located departments such as development, sales and supply chain
- B.S. degree in engineering, Business Administration and Engineering, industrial engineering or related

What we offer:

- A Vision of keeping the world's machinery in motion by making asset health management as easy as a "click"
- Continuous training courses in technical subjects as well as training in soft skills and latest technologies
- An attractive working environment with the opportunity "working from home"
- The chance of shaping and creating the future roadmap of B&K Vibro's core product portfolio

If you recognize yourself in our description, please send your complete application, including your earliest starting date and salary expectations, in English to our Human Resources department (career@bkvibro.com).

B&K Vibro is an equal opportunity employer and all applicants will be considered for this position without regard to national origin, gender identity, sex, sexual orientation, color, religion, veteran or disability status.
