

## Software Development Engineer (f/m/d)

**Brüel & Kjær Vibro** (B&K Vibro) is the world's leading independent supplier of advanced electronic systems and software for protecting and monitoring rotating machinery, for example turbines, compressors, pumps, fans, blowers, generators and many more.

Part of the NSK Group, we are forerunners and pioneers in providing intelligent solutions to ensure uptime for our customers' rotating machinery.

Based on a thorough dialogue with the project team, you understand how to make a clients' need a reality. Which includes, transforming our software product offerings from traditional on-premises server-based solution to be a fully-fledged Software as a Service.

### Your Mission:

- Realize and maintain high-performance software primarily in cloud
- Engaged in all phases of the software development process
  - Requirement analysis
  - Conceptual designs
  - Doing the implementation
  - Testing by using modern test automation solutions and documentation.

### Your profile:

- Completed relevant studies (computer science, natural sciences, etc.) or comparable qualification.
- You are feeling home in MS Azure and MICROSOFT development stack.
- Preferred experience in one or more of the following technologies:
  - Source control: Git
  - Software lifecycle management: Azure DevOps
  - Languages: Python, C#, Typescript
  - Frontend: Angular
  - Backend: .NET Core
  - Containers: Docker/Kubernetes
  - Infrastructure as Code: Terraform
- Expertise in data processing and designing data driven systems.
- Clear understanding of integration patterns and communication protocols
- Enthusiasm for innovative technologies, methods, and concepts
- Communication skills (English), ability to work in a team as well as to work independently

### What we offer:

- The opportunity to play a decisive role in shaping the core product in an early stage alongside a diverse, multinational team.
- A competitive salary combined with attractive corporate benefits.
- An attractive working environment including "working from home" option and flexible working conditions.
- Remote team events and opportunities to socialize with colleagues also during Covid.

If you recognize yourself in our description, please send your complete application, including your earliest starting date and salary expectations, in English to our Human Resources department ([career@bkvibro.com](mailto:career@bkvibro.com)).

B&K Vibro is an equal opportunity employer and all applicants will be considered for this position without regard to national origin, gender identity, sex, sexual orientation, color, religion, veteran or disability status.
