

Brüel & Kjær Vibro

A member of the NSK Group

Software Test Engineer (f/m/d)

Brüel & Kjær Vibro (B&K Vibro) is the world's leading independent supplier of advanced electronic systems and software for protecting and monitoring rotating machinery, for example turbines, compressors, pumps, fans, blowers, generators and many more.

Part of the NSK Group, we are forerunners and pioneers in providing intelligent solutions to ensure uptime for our customers' rotating machinery.

Based on a thorough dialog with the project team, you will help translate customer requirements into testable requirements and be significantly involved in software quality using automated testing.

Your Mission:

- Independent planning and testing of software
 - Planning, development and implementation of (automated) tests and test methods
 - Analysis and evaluation of test runs and their results
 - Evaluation of new test tools and technologies
 - Creation and maintenance of test reports
 - Collaboration in agile, interdisciplinary teams

Your profile:

- Completed relevant studies (computer science, natural sciences, etc.) or comparable qualifications.
- Several years of professional experience in the test environment, especially in test automation and Integration testing
- You are feeling home in MS Azure and MICROSOFT development stack.
- Enthusiasm for innovative technologies, methods, and concepts
- Communication skills (English), ability to work in a team as well as to work independently

What we offer:

- The opportunity to play a decisive role in shaping the core product in an early stage alongside a diverse, multinational team.
- A competitive salary combined with attractive corporate benefits.
- An attractive working environment including "working from home" option and flexible working conditions.
- Remote team events and opportunities to socialize with colleagues also during Covid.

If you recognize yourself in our description, please send your complete application, including your earliest starting date and salary expectations, in English to our Human Resources department (career@bkvibro.com).

B&K Vibro is an equal opportunity employer and all applicants will be considered for this position without regard to national origin, gender identity, sex, sexual orientation, color, religion, veteran or disability status.
