► **Pharmaceuticals: Manufacturing machinery**

Take your machine monitoring one step beyond

- Actionable insights that stop potential faults sooner
- Expert diagnosis that keeps machines running longer
- Continual upgrades to power-up your processes

Push the limits of your pharmaceuticals process

In the rapidly evolving pharmaceutical landscape, and the race to provide high-quality, life-altering medications to the world, we know what it takes to keep your machinery in motion. Our Condition Monitoring solutions and expert team help you to maximize uptime and ensure your machinery keeps producing. Using BKV Beyond, you can avoid expensive lost batches, unnecessary maintenance costs, costly quality control risks, and poor decisions due to a lack of data. Typical assets monitored include critical machines such as centrifuges, spray driers, tablet presses and HVAC systems, and semi-critical machines such as pumps, fans, drives, and gearboxes.

Get the benefits

Fix faults faster with actionable insights

Turn raw data into smarter decisions. BKV Beyond collects information and uses AI to rapidly detect potential faults, identify the root cause, and suggest solutions.

Diagnosis you can depend on

A qualified engineer in our remote team double-checks everything the AI recommends. So you can act with confidence on our actionable insights, preventing unexpected outages and only scheduling maintenance when it's needed.

Embrace the future with ease

When you connect your machines to the BKV Beyond platform, we handle all system upgrades, maintenance, and critical security patches for you, without interrupting your operations.

Keep getting better and better

Our AI is always learning, so it can better understand the health of your assets. As time goes on, the system will help you power-up processes and fix faults even faster.

BKV BEYOND

UNLEASH PERFORMANCE WITH LIMITLESS ASSET HEALTH MANAGEMENT

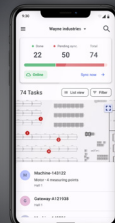

Collect

Monitor your machines with our fast-to-fit BKV Collect wireless sensors.

Connect

Harness sensor data securely and centralize your communications with BKV Connect gateways.

BKV Beyond

Work smarter with actionable insights identified by AI, verified by our experts.
